

February 24th in Berlin, Germany

The environment

Vision numeric team accepted the invitation of the renowned school Oberstufenzentrum IMT in Berlin, in order to present 3DESIGN CAD with the assistance of Goldsmith Maximilien Dieterle from Moderne Goldschmiede in Regensburg.

Our team wants to thank him for bringing his Solidscape Printer (Rapid Prototyping Machine) onsite and for printing real 3D samples in front of our visitors, visibly impressed. The latter was invited to a 3DESIGN CAD presentation complete with software demonstration, CAD and Rapid Prototyping technologies presentation and intervention by an advanced 3DESIGN CAD user.

Visitors

During this event we presented 3DESIGN CAD to a broad audience (jewellers, designers, students, directors...) mainly located in the Berlin area.

The reputation of the school participated to the coming of many renowned professionals including a local service bureau of Berlin: Münchow company.

Members of the school who had already used 3DESIGN CAD were delighted to see all the software's capabilities. Regarding those visitors who were not familiar with it, they were pleasantly surprised by its potential.

The event

As for each demonstration, 3DESIGN CAD surprised and seduced its public. General returns and feedback are very positive. Frank Adenauer, regional sales manager explains "We were able to talk to almost all visitors after the event and they had a good feeling about 3DESIGN CAD."

Partner

Our team wants to specially thank Ms Weiss and M.Stojan from Oberstufenzentrum and M.Strahler Goldschmiedeeinnungsmeister from Berlin. Frank Adenauer exclaims "it was really nice to show 3DESIGN CAD in this highly technical place."

CONCLUSION

Our team really enjoyed the relaxed atmosphere and the visitors' interest during the demonstrations.

In conclusion, this event was more than positive in a favourable environment with encouraging returns from visitors about 3DESIGN CAD.
